

SOLID WASTE FACILITIES PERMIT

PERMIT NO. (SEE 1.02)

Department of Health Environmental Health System	COUNTY Fresno	PERMIT NO. 10-AA-006
Facility Designated Site		DATE 3/17/78
Fresno County Public Works Department		
11 2, 2 15 2		

1. This facility is a 120 acre Class II-2 Sanitary Landfill. Area and canyon fill methods of operation are utilized. The facility is located in the western quarter of Section 9, Township 21 South, Range 15 East, N28 & N, southwest of the City of Coalinga. An annual average of 25 to 30 tons of combined waste are received per day on a seven day per week basis. Types of wastes received at the site include:

- a. Residential and Commercial Wastes
- b. Glass (no bulk deliveries accepted)
- c. Households
- d. Construction and Demolition Debris
- e. Dead Animals
- f. Infectious Waste

Septic tank pumpings, sewage sludge, and hazardous wastes are not accepted at the site. The site is open 24 hours per day, seven days per week. The design and operation of this facility, as it existed immediately prior to August 15, 1977, are described in the report of information submitted by the operator.

2. Proposed changes in the facility's operation are anticipated for the next five years.

The following documents condition the design and operation of this facility:

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

PAGE: Two

- a. County of Fresno and City of Coalinga Joint Powers Agreement for operation of the site.
 - b. Waste Discharge Requirement No. 71-140; Issued by the Regional Water Quality Control Board, Central Valley Region.
4. Land within 1000 feet of the site is zoned AB-40 and consists of unimproved foothill chapparal land and grazing land.
5. The current operations of this facility are not in conformance with the State Minimum Standards for Solid Waste Handling and Disposal in that they violate Sections 17636, 17638, 17649, 17658, 17666, 17686, 17703, and 17741. The conditions of this permit will establish an appropriate schedule for compliance with these sections.
6. This facility is included in the Fresno County Solid Waste Management Master Plan and is in conformance with the most recent edition of the plan.

Conditions:

Requirements:

1. This facility must comply with all of the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.

Additional information concerning the design and operations of this facility must be furnished upon request of the enforcement agency.

Prohibitions:

The following actions are prohibited at the facility:

- a. Disposal of hazardous wastes
- b. Scavenging
- c. Open burning

Specifications:

1. No significant change in design or operation from that described in items #1 and #2 of the Findings section is allowed, except for those changes which are required under the "Conditions" portion of this permit.
2. The operator shall immediately commence and thereafter maintain a log of special occurrences.
3. By August 1, 1978, an attendant shall be provided at the site at all times in which the site is open to the general public. Until such time that an attendant is provided, the operator shall monitor the site daily to minimize scavenging and fire hazards.
4. By August 1, 1978, the operator shall commence and thereafter maintain daily weight or volume records.

Requirements:

1. The following provisions must be met:
 - a. The operator shall provide an adequate barrier by August 1, 1978, to preclude unauthorized access to the site. Topography can be considered an adequate barrier for portions of the site.
 - b. The operator shall provide sanitary facilities at the site by May 15, 1978.
2. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

Self-Monitoring Program:

The following items shall be monitored by the operator of this facility or his agent and records shall be kept and made available to the enforcement agency upon request:

1. Quantity and types of wastes received at the site per day and per week.
2. Area of site utilized per year.
